

## **Faithful to God's call ...**

The Chapter mandates CLT to continue the process of revising our Constitution taking the necessary steps, including engagement with membership and calling, if necessary, an Extraordinary General Chapter

- Recognising that there is a need to change our structures
- Affirming that Chapter 4, draft three is an excellent model of the proposed changes, with the possibility of some modifications if required
- Acknowledging that time is needed for more education, preparation, research and exploration of both the canonical and civil implications of taking this step.

## **God's call...**

### **Vision:**

- Sustained by contemplative living, we remain open to Mystery expressed in our evolving Universe.

### **Charism:**

- Gifted with hope and mercy and deepening our understanding of ourselves as an international congregation, we are called to nourish and live the charism of mercy with others and within the whole community of life.

### **Leadership:**

- We recognise the need to develop a system which embraces both the personal and communal aspects of leadership.

### **Vulnerability and Healing:**

- Aware that new life is in the process of evolving we accept our vulnerabilities as a gift that enables us to mutually receive and give compassion.

### **Mission:**

- Conscious of the diversity and interdependence of all life we join with others in responding with compassion to critical issues of injustice. Our presence in various countries and our connections with Mercy International enable us to work together to this end.

## **What is my response...?**
